

20 January 1956

MEMORANDUM FOR THE RECORD

SUBJECT: Report of Action Taken by the Office of Logistics on the
Findings of the Inspector General's Office

REFERENCE: Memorandum for the DDCI from ADD/S dtd 29 Dec 55, same subject

1. On 3 January the Inspector General forwarded to the DDCI his comments regarding the non-implementation of two recommendations contained in the I/G's original survey as set forth in referenced memorandum. He concurred in the non-implementation of Category 1, Item 69, but suggested further discussion with the Comptroller and the undersigned regarding Category 3, Item 3.

2. Yesterday, Mr. Saunders and I discussed with Messrs. Kirkpatrick and Osborn the recommendation of the Office of Logistics that their inspection capabilities and responsibilities should not be increased. Mr. Saunders and I were unanimous that the Office of Logistics was justified in utilizing the inspection capabilities of other departments, outside contractors, or other Agency requisitioning activities (TSS, Commo) wherever possible. After some discussion, Mr. Kirkpatrick agreed with our conclusions and said that he was satisfied to accept both non-implementations. The undersigned was to advise General Cabell of this conclusion.
